

Alaska Highway Road Log

The engineering marvel of the Second World War, and major adventure road to drive to [Alaska](#). To many, this trip represents a lifetime of planning and thought, while to others it is an annual journey. Whether this is your first time driving to Alaska or you're a seasoned traveller of the Alaska highway, we hope the following information will be an asset. Stretching 2,288 km/1422 miles from [Dawson Creek, British Columbia](#) to [Delta Junction Alaska](#). The Alcan Highway is mostly paved in Canada and all paved in Alaska.

From Dawson Creek, the Alaska highway extends almost 968 km/595 miles to Lower Post where it enters the [Yukon](#). The highway winds through the Yukon for about 885 km/550 miles and crosses into Alaska at mile 1221/km 1964. Continuing on to Delta Junction at mile 1422/km 2288, the Alaska Highway joins the [Richardson Highway](#) for the remaining 98 miles/158 km to [Fairbanks AK](#).

0-[Dawson Creek](#). Elevation 2,185 ft. Junction of Alaska Highway and Highway 97 (Hart Highway).

km 2.4/mile 1.5 Mile 0 RV Park, Walter Wright Pioneer Village..

km 3.2/mile 2 Dawson Creek Public Golf Course.

km 1881.6/mile 1169.2 Snag Creek.

km 1883.7/mile 1170.5 Mirror Creek. Fishing for Grayling.

km 1884.4/mile 1170.9 Rest area.

km 1897/mile 1178.7 Little Scottie Creek.

km 1902.5/mile 1182.2 Canada/ USA International Border. Rest Area; information sign with facts on International border.

The bold number in the highway description is the distance from Dawson Creek, British Columbia. If you are northbound the markers change from kilometres to miles. If you are heading south the markers are in kilometres.

km 1902.5/mile 1182.2 [US Customs and Immigration](#). All traffic entering Alaska must stop. Open 24 hrs. Time Zone Change. If you are traveling to Alaska it is one hour earlier, The [Yukon](#) is on Pacific Time Zone. It is the law in [Alaska](#) to travel with your headlights on at all times.

Bell's Travel Guides

km 1902.5/mile 1182.2 You're now entering Alaska's broad, interior plateau extending from the Wrangell and Alaska Mountain Ranges to the Brooks Range beyond the Yukon River. Highway descends gradually over the 300 miles to Fairbanks along the Tanana River.

**There is a 40mile/64 Kilometre difference between the
Yukon Log Numbers and the Alaska Road Log Numbers**

mile 1223/km 1968 East boundary of Tetlin National Wildlife Refuge.

mile 1223.4/km 1268.8 Scotty Creek.

mile 1224.8/km 1971 Interpretive sign, parking, the Arctic Loon can often be seen in these marshes.

mile 1225.5/km 1972.2 Border City Trading Post.

mile 1228/km 1976 Parking with information sign on "Corridors for Passage".

mile 1229/km 1977.8 Tetlin National Wildlife is a dynamic landscape made up of forests, wetlands, tundra, lakes, mountains and glacial rivers bounded by the snowy peaks of the Alaska Range. This upper Tanana River valley has been called the "Tetlin Passage," because it serves as a major migratory route for birds traveling to and from Canada, the lower 48 and both Central and South America. Many of these birds breed and nest on the refuge. Others pass through on their way to breeding and nesting grounds elsewhere in the state. Migrants, including ducks, geese, swans, cranes, raptors and songbirds, begin arriving in the valley in April, and continue into early June. An estimated 126 species breed on Tetlin during the short summer, when long days and warm temperatures accelerate the growth of plants, insects and other invertebrates, providing a ready source of rich foods for nesting birds.

Tetlin Refuge also supports a variety of large mammals. Dall sheep dot the higher slopes while moose feed upon the tender new growth that springs up in the wake of frequent lightning caused fires. Wolves, grizzly and black bears and members of three different caribou herds range over the refuge.

Arctic grayling, burbot, lake trout, northern pike and whitefish are present in refuge lakes and streams. No significant salmon runs reach this far inland.

As one of the only two road-connected Alaskan refuges, Tetlin has the unique opportunity of reaching nearly all the visitors who travel to the state via the Alaska Highway. Visitors from all over the United States and many foreign countries pass along Tetlin's northern boundary every year. This gives the refuge an outstanding opportunity to provide interpretation about Alaskan habitats and the National Wildlife Refuge System. To meet this challenge, the refuge is an active participant in the Alaska Public Lands Information Center in Tok, and has a visitor reception center with interesting display at mile 1229.

mile 1233/km 1984 Parking.

mile 1240/km 1995.5 Parking, Hidden Lake Trail.

mile 1240.2/km 1995.9 The vertical culverts along the road were one of many attempts to prevent the permafrost from thawing and the road from falling apart.
